Attached is the 1986 ARCO/Laguna agreement which Frank Singer forwarded to us. We had asked Frank, who is handling separate litigation involving Laguna in the ENRD Natural Resources Section, to inquire at DOI on our behalf after EPA Region 6 requested a copy. Apparently this copy of the agreement is not fully executed, as discussed below:

From: Cojocari, Gladys [mailto:Gladys.Cojocari@sol.doi.gov]

To: Singer, Frank (ENRD)

Subject: FW: 1986 agreement

Frank, here is the agreement located at Lenexa. I asked my people if, even if it wasn't fully executed, they thought it was a copy of the final version. Here is the reply from Steve Spencer, the Regional Environmental Officer.

" Since it has two of the three signatures I would "guess" that it is the final one. However, I would sure like to find one that has the Secretary's signature. There is a line under the Anaconda signature that says Assistant Secretary but my Deputy Director found out who the Assistant Secretary/Indian Affairs was at that time and it doesn't look like his signature. It is probably a person in Anaconda Attesting to their signature but don't know for sure."

I hope that for your colleague's purposes, this one will serve for now. We can try to keep looking through the course of discovery in Laguna.

Regards,
Nicky

Nicki

Here is a scan of the agreement. It does appear that, as Steve described to me yesterday, it is not a fully executed version.
